College of Pharmacy

- The College of Pharmacy at Deraya University combines top-notch faculty members, up-to-date programs, state-of-the-art facilities, and remarkable research.
- The college provides two PharmD programs (general and clinical), and one graduate program (Master's degree in pharmaceutical chemistry).
- Students enrolled in PharmD programs will enjoy a unique experience of teaching and learning, as the college has an active collaboration with CIPhER; one of the leading centers in teaching and learning in the USA affiliated by the University of North Carolina at Chapel Hill, USA.
- Both PharmD programs are carefully crafted to prepare highly competent pharmacists with excellent communication skills and profound knowledge.
- The Master's program in Pharmaceutical Chemistry provides a top-quality graduate training by nationally and internationally renowned experts in the field of pharmaceutical chemistry.
- Join us to discover how the college of Pharmacy at Deraya University regards the requirements of the pharmaceutical market as its top priority and is determined to fulfill them in the most efficient way.

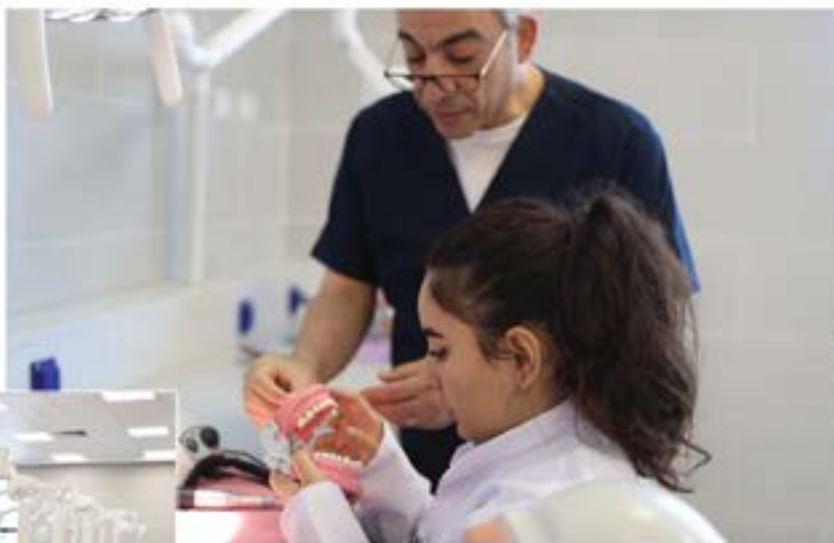

College of Physical Therapy

- The college of physical therapy at Deraya University is the first and only higher education physical therapy institute in Minya governorate, and its clinic serves about 6 million citizens in the whole governorate.
- The College aims to prepare highly competent physiotherapists who are fully equipped with cutting-edge knowledge and versatile professional skills needed to put them among the highest-ranked physiotherapy professionals nationally and globally.
- Deraya University signed several agreements of cooperation with notable universities in USA to promote faculty and student exchange programs, update curricula and course contents according to international standards, and emphasize the core competencies of physical therapy profession, including effective communication, leadership, and professionalism.
- The college-affiliated outpatient clinic is provided with a wide collection of physical therapy equipment, for educational, therapeutic, and research purposes.
- The clinic provides all kinds of physical therapy services to hundreds of patients from the local community every week. In addition, the college launches medical convoys to provide physical therapy services for free to residents of underserved areas in Minya governorate.
- Join us to learn how you can participate in these convoys and serve your local community while you learn from nationally renowned experts in physiotherapy.

College of Dentistry

- The college of Dentistry at Deraya University is among the top dental schools in the nation, with top class dental chairs, equipment, and facilities.
- The college awards the bachelor's degree in oral and dental medicine and surgery.
- The college has a panel of carefully selected faculty members who are experts in their fields, with vast experience in dental education.
- Several well-equipped simulation labs are available for the pre-clinical training of students.
- All lecture halls are equipped with smart boards and other high-tech settings to provide students with the best educational experience.
- The college has 5 affiliated clinics, equipped with 250 world-class dental units and x-ray units. In addition, radiology department is equipped with top-level digital, panorama, and CT scan units.
- Join us to learn how we apply student-centered educational philosophy, which not only focuses on teaching and learning, but also considers all aspects of the life of students, including cultural and psychological aspects, and students' wellbeing.

College of Business Administration

- The business school at Deraya University, the first of its kind in Minya governorate, was established in 2021. The college is equipped with state-of-the-art lecture halls, computer and language labs, and advanced facilities to provide students with unmatched educational experience.
- The college is committed to provide several training opportunities and internships in some of the brightest businesses and companies in the country, which aim to expand the graduates' network of connections, and improve their professional skills.
- These internship opportunities create a competitive advantage for the graduates and maintain a brilliant image of the college and its graduates with the biggest businesses in the Egyptian markets.
- The college employs a combination of modern teaching methodologies to deliver knowledge and skills to students, including simulation games, active learning techniques, and evidence-based teaching and learning practices.
- Join us to learn how to start your own business and become an independent entrepreneur. Your future in business administration starts here!

Student life

Deraya University believes that a rich and enjoyable student life that is established on holistic students' wellbeing, inclusive and respectful environment, cultural diversity, and recreational activities is the key to academic success.

To fulfill this commitment, the university is passionately engaged in the following arrangements:

Arts and literature:

The office provides experienced trainers on different musical instruments. The university choir and solo performers are regularly participating in musical and cultural events nationwide. Various musical instruments are available, in addition to more than one theatre campuswide. Students talented in drawing, painting, and writing poetry, short stories, novels, and articles will find proper guidance through workshops and lectures organized by experienced chaperons.

I- The office of students' activities

The office of students' activities is concerned with building reliable and wholesome personalities within our students to help them succeed in all aspects in life. The office has a panel of activities that suit students with different personalities, backgrounds, and interests.

Sports:

The university has established a state-of-the-art sports and recreational complex in which various sports equipment and courts are available. Despite being recently established, Deraya university has participated in many local and national university-level tournaments along the past few years, and many young talented students have emerged.

Students' chapters:

Students' chapters aim to strengthen noble values, social awareness, sense of responsibility, and loyalty to the university and the home country among youths. Students from different chapters are committed to organize or participate in various proceedings that range from scientific forums, literature societies, novel clubs, and community services.

**Scientific, cultural, and recreational day trips, camping trips, and travels:**

The office, the affiliated committees, and students' chapters organize several travels and day trips that aim to fortify students' engagement with their community, history, and culture.

These trips/travels include, but are not restricted to:

- Hospitals and orphanage visits.
- Scientific trips to pharmaceutical plants, physiotherapy units in sports clubs, renowned business corporates, and specialized hospitals.
- Famous national attractions, including historical sites and coastal cities.
- Day trips and camping within the activities of boy scout and girl scout national association.

**II- Students Support Office and Office of the Ombudsman:**

The students' support office provides psychological and social counseling services to students who are under stress. The office is managed and operated by expert and professional counselors. The office of the ombudsman will be established soon. It will provide legal counseling and advocacy services for students, faculty, and staff alike.

International Cooperation and global outreach

- Deraya University signed several cooperation agreements with notable American Universities, including University of Iowa, University of North Carolina - Chapel Hill, and University of Texas Medical Branch at Galveston.
- These agreements aim to exchange students and faculty members, collaborate in research, and improve teaching and learning methodologies.
- Mutual collaboration activities have already been carried out with other Universities like the University of Rhode Island. Faculty members from American Institutes visit Deraya to give lectures and provide training to students and instructors.

- The International Cooperation office at Deraya is providing all necessary tools for Deraya faculty members to apply for international scholarship for research purposes. So far, several faculty members have already travelled to USA and Europe on short- and long-term visits to carry out collaborative research.
- Employment fairs are being regularly held at Deraya, including the Pharma Day in collaboration with the School of Continuing Education at the American University in Cairo, in addition to many sessions organized by the International Cooperation Office that pave the way towards graduate school enrollment in the USA and other countries.

Community Services and engagement

We care about our community! The university dedicates significant amount of time and effort to develop the local community in Minya. These efforts include:

- Year-round programs to eradicate illiteracy in adults in local rural communities.
- Scholarships and discounts for students native to Minya governorate or those from border governorates.
- Regular medical convoys and caravans that provide free physiotherapy, pharmaceutical, and dental services to residents of underserved areas.
- Regular year-round programs to visit bed-ridden patients in national hospitals like 57357.

Ranking and Accreditation

The university and its academic programs provided are accredited and under academic supervision by the Egyptian Ministry of Higher Education(MOHE). Governmental oversight is provided through the Council of Private Universities, chaired by the Egyptian minister of higher education.

Deraya University is included in several world universities rankings, including Times Higher Education (THE), Scimago, and Webometrics.

RANKINGS

Research

The University has a remarkable research profile, and according to SCOPUS, the university researchers have published about 580 research and review articles in high-impact factor, peer-reviewed journals in the past 7 years, which ranks Deraya University among the most productive Egyptian universities in terms of research.

Deraya Academy

Recently, Deraya University established Deraya Academy for Continuing Education, whose task is to prepare the graduates for the highly demanding and continuously expanding job market. The academy provides basic and advanced courses in various necessary topics, ranging from basic, advanced, and professional English to Digital Marketing, Project Management, Digital Banking, and Digital Transformation.

The academy has signed several agreements with many reputable institutes including the the American University in Cairo (AUC), The Arab Academy for Management, Banking, and Financial Sciences, Nahdet Masr, and more.

Facilities, Housing, and Transportation

The University provides fully furnished residential units within walking distance from campus, with different accommodation options, ranging from single rooms, double rooms, up to full apartments. The university also has a large collection of air-conditioned buses to commute between campus and different areas within Minya Governorate.

Minia City

Minia city is a modern and beautiful city on the West side of the river Nile, 240 kilometers south of Cairo.

It contains major archaeological sites that go back to pharaonic, Coptic, and Islamic eras, and it has some of the most notable attractions in Egypt, including Tal Al-Amarna, Beni Hasan, Tuna Al Gabal, Al Ashmonin, Al bahnasa, St Mary's church in Gabal al Tair (official site of the Holy Family Trail), and many more.

Furthermore, the city is blessed with a mesmerizing view on the River Nile and the overlooking Mukattam hills. The New Minia City, which lies only a few kilometers away from Minya City, and in which Deraya University exists, is known for its beautiful restaurants and cafes, and well organized cityscapes and residential compounds.
