Assess patient and apply treatment program

PROFILE

I was representative of Deraya university at the sixth national youth conference and the first international forum of scientific research and high education under supervision of president of Egypt because of my advanced rank and communication skills.

I am life long learner so I have many certificates from Harvard university , world health organization and prime physio in new eras of neuroscience , therapeutic modalities , manual therapy , neurorehabilitation ,sports injury , and cardiopulmonary rehabilitation specially mechanical ventilation.

Among other distinctions in the field. I have clinical nutrition diploma from American association of continuing medical education , and zewail city for science and technology. in addition to my suitable clinical skills and scientific research basics . I can perfectly integrate knowledge and skills to explain and demonstrate theoretical ,practical and clinical sessions in very simple methods . So I could be qualified demonstrator at your great university .
