Guide lines for Poster Preparation

- Posters should stimulate discussion, not give a long presentation. Therefore, keep text to a minimum.
- Emphasize graphics, and make sure every item included in your poster is necessary.
- Utilize handouts to supplement your poster.

Make sure ideas flow logically from one section to the next

- Use charts and graphs to illustrate data (avoid large tables of raw data).

- Use high-resolution photographs (web images often will not work). Do not use all capital letters.
- The use of typewritten, handwritten or a printed Power Point presentation as a poster is Unacceptable. Presentations in these formats will be removed.

Be consistent ...

- Keep consistent margins.
- Keep line spacing consistent.
- Keep the color, style, and thickness of borders the same.
- Keep shading consistent.
- Pick no more than 2–3 colors.
- Text readability.
- Title banner should be legible from 20 feet away.
- Body text should be legible from 6 feet away.
- It is recommended that you hand-carry your poster to the conference, using roll up.
- Costs associated with creating and shipping the poster display will be the responsibility of the authors.

GOOD LUCK
